

Latest Performance Motor Oil

Eco-T 0W-16 fully synthetic engine oil is specially developed for hybrid plug-in and hybrid-electric cars and the latest ILSAC GF-6B standard promises proven engine performance for hybrid vehicles.

Progression to ILSAC GF-6

ILSAC GF-6 specification is the latest technology and only available since May 2020 with its superior performance over ILSAC GF-5 and API SN Plus.

GF-5 > API SN PLUS > GF-6

GF-5

- 1 Piston cleanliness (Seq III)
- 2 Oxidation control (Seq III)
- 3 Cam wear protection (Seq IV)
- 4 Engine sludge protection (Seq V)
- 5 Fuel Economy (Seq VI)
- 6 Corrosive wear protection (Seq VIII)

API SN Plus (includes GF-5)

- 7 Low Speed Pre-ignition (Seq IX)

GF-6 (Includes GF-5 upgrades and API SN Plus)

- 8 Timing chain wear protection (Seq X)

The spider diagram highlights that the latest ILSAC GF-6 standard claims certain improvements over ILSAC GF-5 including:

- Retained fuel economy
- Superior wear protection
- Engine endurance
- Low speed pre-ignition minimisation
